

System Requirements

September 2009

Enterprise Network Implementation.

A solution that provides WAN/LAN service for more than 30 concurrent user sessions. Often consists of one or more terminal servers accessing a single database server.

Application Server (Terminal Services) System Requirements

Processor:

- 2.0 GHz minimum
- 2.6 GHz recommended (dual processors)

RAM:

- 2 GB minimum
 - 4GB recommended
- Add 100 MB for each concurrent terminal server user over 30

Hard Drive:

- 2 GB minimum

Operating System:

- Windows® 2003 Server Service Pack 2
- Windows® 2008* Server Service Pack 1 32/64bit**

Standard and Enterprise editions supported

Other Required Software:

- Microsoft .NET 2.0 Framework
- Terminal Services (Requires terminal services licensing)

Enterprise Network Implementation (cont.)

SQL (Data) Server System Requirements

Processor:

- 2.0 GHz minimum
- 2.6 GHz recommended (dual processors)

RAM:

- 2 GB minimum
- 4GB recommended

Hard Drive:

- 2 GB minimum
- Contact support for estimating data storage for Imaging

Operating System:

- Windows® 2003 Server Service Pack 2
- Windows® 2008* Server Service Pack 1 32/64bit**

Standard and Enterprise editions supported.

Other Required Software:

- Microsoft .NET 2.0 Framework
- Microsoft SQL 2005
- Microsoft SQL 2008*
- Microsoft IIS 6.0

Stand-Alone – Terminal Server for Small Networks. A

solution that provides WAN/LAN service for less than 30 concurrent user sessions. This schema often consist a single terminal server utilizing Microsoft SQL Server Express* or Standard Edition.

Processor:

- 2.0 GHz minimum
- 2.6 GHz recommended (dual processors)

RAM:

- 2 GB minimum
- 4 GB recommended

Hard Drive:

- 2 GB minimum
- Contact support for estimating data storage for Imaging

Operating System:

- Windows® 2003 Server Service Pack 2
- Windows® 2008* Server Service Pack 1 32/64bit**

Other Required Software:

- Microsoft .NET 2.0 Framework
- Microsoft SQL 2005
- Microsoft SQL 2008*
- Microsoft IIS 6.0
- SQL Express Editions supported

Network Client(Fat) /Server

A solution that provides LAN service for 10 or less clients. Microsoft SQL Express will need to be installed on a Network server for best results. Not supported in WAN configurations.

Processor:

- 2.0 GHz minimum
- 2.6 GHz recommended (dual processors)

RAM:

- 512 GB minimum
 - 1 GB recommended
- Follow Microsoft recommended operating system memory requirements

Hard Drive:

- 2 GB minimum

Operating System:

- Windows XP Pro Service Pack 2
- Windows Vista Service Pack 1 Business and Ultimate Editions
- Enterprise, Ultimate edn. 32/64bit**

Other Required Software:

- Microsoft .NET 2.0

Document Imaging requires TWAIN compliant scanner

**Supported Spring 2010*

***Windows On Windows*

This document provides an outline for the Suntell installation team and your technical staff or consultant. This document contains information in regards to hardware requirements and how Suntell should be deployed in an optimal infrastructure.

*Please note: the Suntell System Requirements change periodically. It is important to keep up with up to date hardware requirements to ensure overall system stability and performance. * Information included in this document is subject to change without notice.*
